Truths that Strike Home

Your grocer is honest and-if he cares to do so-can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended-or with what -or when roasted? If you buy your

coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.) (Save the Lion-heads for valuable premiums.)

Leavenworth. Kam. Aug. 19.—The Times says: For a priosner to serve only three hours in the penitentiary for an original sentence of one year and one day is certainly unusual. This is true in the case of T. J. Attaway. It was through the recent ruling of the attorney general of the United States stroughling his case. Attaway was brought to the federal penitentiary Wednesday morning at 9 o'clock by Marshal B. H. Colbert of the Suddenday for the Instead of bringing the prisoner to the safe given on October 19, 1904.

Instead of bringing the prisoner to the federal penitentiary at that time to serve out his sentence he was allowed to go out on a suspended sentence and it was not until August 2th that the court ordered that he be brought to the federal penitentiary to serve out his sentence he was allowed to go out on a suspended sentence and it was not until August 2th that the court ordered that he be brought to the federal penitentiary to serve out his sentence.

The attorney general had ruled that allowances of good conduct should commence from the date of sentence and not from the time the prisoner is received at the penitentiary. This ruling was made June 19, 1895.

Many people wash their scalps Saturday night or Sunday to try to keep the dandruff down for the week, but on Monday night the scalp has begun to itch and Tuesday morning will find a good supply of dandruff when the hair is brushed. There is but one real scientific way of curing dandruff, and that is to kill the germ that causes it, and falling hair, and finally baldness. There is only one preparation that will destroy the germ, and that is Newbro's Herpleide. It is an entirely new discovery and the only hair preparation that is based on the new scientific principle. In addition Herpleide is a very refreshing hair dressing for regular toflet use.
